THE FIRST CHRONICLE

In the vast province of Prim lies a great forest known as The Primwoods. It is here that the powerful wizard alliance "The Order of the Talon" has made their expedition. Among them was Hekl, also known as "the Mad Crow" who was dismissed from the group due to his experiments with arcane scrolls and alchemy. It seems that he has lost his mind attempting to master the art of flight and was expelled for his most ambitious nature.

THE SILENT OWL INCURSION

However, there may be more to the reason...
It seems Hekl knew something of the Order of the Talon that the archleader Amondus "the Silent Owl" did not approve of.

Amondus swiftly invaded Hekl's homeland, constructed a great floating palace in the sky, and used his powers of summoning to control a legion of evil.

RETRIBUTION OF A MADMAN

Amondus' intentions are unclear, but he has ordered his many goblin minions to steal Hekl's precious magic items and hide them throughout the land to deter Hekl's effort.

Hekl's only hope is to build up his magical powers, rid the area of all evil foes, and locate the legendary trident that is known as the TRI-CASTER to give him the means of reaching the Floating Palace to defeat Amondus and restore peace at once.

GET STARTED ON YOUR QUEST!

THE MAD WIZARD is a screen-by-screen, side-view, platform adventure game in which you guide the wizard "Hekl" throughout an open-ended fantasy world. The focus is on exploration, magic use, puzzle solving, and reaching areas through levitation. Along the way, Hekl will find hidden items to grant new abilities which will allow him to access more parts of the world.
You will be granted infinite continues to complete your quest. The game ends when Amondus is finally defeated.

ADVICE FOR THE ADVENTURER

- When Hekl flashes after taking damage, he will be momentarily invulnerable.
- Always look for ladders or branches that lead off-screen. They could be a path to a new area.
- If you find it difficult to avoid certain enemy attacks, you might not yet have enough speed.
- Falling in water will reset the screen but no life points will be lost.
- Tri-caster can combine blocks and bridges. Use it to go almost anywhere!
